

Field Staff Product Dossier

For Marketing, Sales, and Support Teams

1. Product Overview

Field Staff is a white-labeled workforce operations module connecting field attendance, HR controls, and payroll preparation in a single workflow.

- Capture verifiable attendance with geolocation.
- Standardize HR operations through one workspace.
- Move from attendance to payrun with reporting clarity.

2. Fe

Area	What It Does	Business Impact
Attendance	Clock in and clock out with GPS coordinates, notes, and ledger history.	Supports attendance accountability.
Employee Pay Setup	Stores payroll profile values including rates and statutory fields.	Improves payroll consistency.
Shift Scheduling	Creates templates and distributes shifts by staff/department and date.	Improves workforce planning.
Manual Attendance	Allows controlled HR attendance corrections.	Handles field exceptions safely.
Leave Tracking	Records leave requests and status changes.	Aligns operations and payroll context.
Reporting and Payrun	Generates reporting exports and payrun statements.	Accelerates payroll prep workflows.
Project Assignment	Assigns projects to one or many staff with supervision traceability.	Improves resource allocation control.

3. Access and Governance

- Server-side tab-level authorization in HR workspace.
- Strict role-ID allowlist for Project Assignment access.
- Admin-managed allowlist settings and role context visibility.

4. Te

- Marketing: position end-to-end attendance-to-payrun value.
- Sales: qualify by distributed staff, payroll prep, and governance needs.
- Support: verify install, permissions, role allowlist, and reporting pipeline.

5. Pa

- Weekly regular hours cap: 44.00
- Overtime multiplier: 1.5x
- NIB: 5.5% employee and 6.5% employer
- NHIP: 3.0% employee and 3.0% employer
- NHIP monthly ceiling reference: 7800.00

6. Re

- Attendance record export
- Attendance summary export
- Daily attendance export
- Monthly attendance export
- Department-wise export
